

20th July 2019

I have been asked if I might provide a reference for Electric Cake Salad, please see the following which I hope satisfies the required information.

Electric Cake Salad have played at our venue for 7 years now. Formerly as part of the Hawkwind weekend festivals and for two years at our own Madhatter's weekend event. I have always found the band members to be totally reliable, professional, superb musicians and a joy to have around. ECS can be relied on to fill the dancefloor from the opening number with nonstop dancing until the end of their set. Their current fee for playing our festival is a very much deserved £600.

During our first festival one of our headliners could not make it due to ill health with only 2 hrs to spare till their timeslot. ECS (although having played the day before) came to our rescue and finished off our festival with a performance that quite frankly outshone all the others and saving the day for us.

We have built up such a rapport with the band members and received such brilliant feedback from our customers that we have invited them to become our 'house band' returning each year.

To recap I can wholeheartedly recommend this band to meet any venue's needs and please don't hesitate to contact me should you require further information.

Best Wishes,

Elga Mackie, Operations Manager.
